Notes: SD=Standard deviation. [a]Percentage calculated on n=185 currently pregnant women. [b]Percentage calculated on n=243 women with at least one prior delivery. [c]Percentage calculated on n=275 married/cohabiting women who reported age at union. Two participants met both criteria (currently pregnant and delivery in the last 12 months); therefore, percentages in the obstetric status section sum to 100.7%.
